SOFTWARE DEVELOPER

A dedicated Software Engineering student, specializing in Health Informatics Technology, skilled in objected oriented programming, user-friendly design and application of Agile practices for development projects. Proven strengths in problem solving, learning new technologies and collaboration. Multilingual with excellent communication skills in English, Urdu, and Hindi.

TECHNICAL SKILLS

Programming: C#, Python, HTML/CSS, SQL, .NET, JavaScript
Tools: Word, Excel, PowerPoint, Jira, GitHub, Visual Studio Code
Software Practice: Agile methodology
Operating Systems: Windows, Oracle, Linux, Unix

EDUCATION

Health Informatics Technology (Co-op) Advanced Diploma   Jan 2023 - Present
Centennial College, Toronto, ON

Relevant Courses:

Web Interface Design	Structures of HCIS	Database Concepts
Client-Side Web Development	Tools and Algorithms for HCIS	Software Systems Design
Web Application Development	Unix/Linux Operating Systems	Programming - C#

ACADEMIC PROJECTS

Agile Methodology: Implemented Agile principles to iteratively develop features, ensuring that the project adapted to changes and feedback effectively

Scrum Meetings: Engaged in regular Scrum meetings to discuss progress, plan future sprints, and resolve blockers, thereby enhancing team productivity and communication for development

Jira Collaboration: Utilized Jira as a project management tool to track tasks, user stories, and project milestones, which increased team accountability and kept the project on schedule

Website Design:
- Designed a multi-page e-commerce website to feature a selected product. Utilized HTML and CSS to create a responsive, user-friendly interface, including an interactive banner and hotspot map of Canada
- Created an interactive slideshow using HTML, CSS and Java Scripting

Database Development: Used SQL for the development of a Movie database for a Streaming Platform

Calculator Application: Used C# to create a calculator application that allows users to perform common mathematical functions. Designed an attractive and easy to use GUI
